 OPIS

Kramer's C-HM/DM is a high-performance cable with an HDMI connector at one end and a DVI connector at the other. It is designed to connect between digital video sources and displays and recorders that don't have both DVI and HDMI connectors.

- Quality Construction — HDMI to DVI Single Link (18+1 pin) cable provides excellent conductivity at high frequencies and longevity without degradation.
- High Quality Connectors — Gold-plated connectors resist corrosion and offer the best possible connectivity.
- Length 3,0 m.
