 OPIS

The CCX160 is a coaxial installation cables featuring a Flamoflex™ outer jacket compliant to the IEC 60332-1 standard regarding fire and flammability resistance in public installations. The Flamoflex™ material is specifically designed with installers convenience in mind, offering a smooth and durable outer jacket for easy installation and pulling. This cable is designed according the RG6/U standards, featuring a solid high purity copper conductor which is surrounded by polyethylene isolator. The double shielding consisting of an overall aluminum foil surrounded by a braiding offers a high immunity against noise and interference caused by external devices. The CCX160 cable can be used for a wide variety of installation applications such as CATV and CCTV distribution, analogue video interconnections as well has HDTV digital SDI, HD-SDI and 3G-SDI video transmissions. Compatible with Neutrik BNC connector NBNC75BTU11. Recommended HD distance : 140 m
