**OPIS**

The CLD955 is a 110 Ohm DMX-AES cable constructed using the DMX62 cable and fitted with 5-pin XLR connectors. The 26 AWG (0.14 mm<sup>2</sup>) thin and dense stranded conductors with a double (Al-foil + braiding) shielding makes it perfectly suited for use in a large type of lightning applications. The stranded conductors and smooth flexing outer jacket provide a great flexibility with a solid feel. It comes in different lengths from 0.5 meters to 20 meters, providing solutions for all applications.
